

Day 1 – Common Themes

- The majority of losses are preventable
- Some problems of PHL start at production
- Measurement is important, but needs to be standardized
- Long-term, sustainable solutions should:
 - Engage government
 - Be market driven
 - Consider entire value chain
 - Be region specific
 - Involve multiple stakeholders
 - Consider the environmental impact
 - Consider the end goal (PHL reduction? Food Security? Improved livelihoods?)
- How can we overcome barriers of cultural practices?
- What were common themes you noticed? Bring them to the roadmap!
